Building Permit Application Information
Important Notices: Read before signing

Building Permit Application Information
Important Notices: Read before signing

1] Work conducted pursuant to a building permit must be visually inspected by the Code Enforcement Office and must conform to the New York State Fire Prevention and Building Code, The Code of Ordinances of the Town of Enfield, and all other applicable codes, rules or regulations.

2] It is the owner's or authorized agent's responsibility to contact the Code Enforcement Office at the above listed phone numbers at least 48 hours before the owner wishes to have an inspection conducted. More than one inspection may be necessary. This is especially true for "internal work" which will be eventually covered from visual inspection by additional work (i.e. electrical work to be covered by a wall) **DO NOT PROCEED TO THE NEXT STEP OF CONSTRUCTION IF SUCH "INTERNAL WORK" HAS NOT BEEN INSPECTED.** Otherwise, work may need to be removed at the owner's or contractor's expense. Close coordination with the Code Enforcement Office will greatly reduce this possibility.

3] OWNER HERBY AGREES TO ALLOW the Code Enforcement Office to inspect the sufficiency of the work being done pursuant to this permit, provided however, that such inspection(s) is (are) limited to the work being conducted pursuant to this permit and any other non work-related violations which are readily discernible from such inspection(s).

4] New York State law requires Homeowner's and contractor's to maintain Worker's Compensation and Disability Insurance for their employees. No permit will be issued unless currently valid Worker's Compensation and Disability Insurance Certificates are attached to this application or are on file with the New York State Workers Compensation Board.

If the contractor believes he/she is exempt from the requirements to provide Worker's Compensation and/or Disability Benefits, the contractor must complete one of forms: WC/DB-100, WC/DB-101 attached hereto. A homeowner must complete BP-1 (3/99) if involved in construction.

5] A Certificate of Occupancy or Certificate of Completion is required, the structure shall not be occupied until above certificate has been issued unless approved by Code Officer.

6] Work undertaken pursuant to this permit is conditioned upon and subject to any state and federal regulations relating to asbestos material.

7] This permit does not include any privilege of encroachment in, over, under, or upon any street, road or right-of-way.

8] The building permit card must be displayed so as to be visible from the street nearest to the site of the work being conducted.

9] All work shall be performed in accordance with the construction documents submitted and accepted as part of the application. The Town of Enfield Code Enforcement Office shall be notified immediately in the event of changes occurring during construction.

I, _____, the above-named applicant, hereby attest that I am the lawful owner of the property described within or am the lawful agent of said owner and affirm under the penalty of perjury that all statements made by me on this application are true.

X: _____ Date: _____

Application is made for Electrical Work or Solid Fuel Burner installation.
To be used for _____ at a cost of \$ _____
Work is to be completed on or before _____, 20_____.
