Supervisor Barriere recapped the process for the proposed highway facility. In March, 2010 a public hearing on the bond resolution was held. The board's intention then was for all board members to be present before holding a vote. The current bond resolution is the same as at the public hearing, except the dates have been changed. The amount is the same – \$1.1 million.

Bob Ranger stated Municipal Solutions, Inc. is ready to move forward with the next steps. Rates are very favorable right now.

The following resolution was offered by Supervisor Barriere, who moved its adoption, with a second by Councilperson Teeter to wit:

**SUMMARY OF BOND RESOLUTION**

Under the Local Finance Law, the Project has a period of probable usefulness of fifteen (15) years. Such resolution shall be kept available for public inspection in the Town Clerk's Office during regular business hours for twenty days following this publication.

**Discussion:**

Guy Krogh explained the Notice of Referendum must be published within 10 days of the date of the adoption of the resolution and that triggers a 30 day window for someone to submit a qualifying petition. If no qualifying petition is submitted, the board must publish an estoppel certificate which basically closes the door on any claim not made within 20 days. The purpose of that is to provide certainty to municipal financing. If a qualifying petition occurs, a special election will be held and the forms will be filed, either by the town clerk or by the county board of elections. If the resolution passes at the special election, then the town would file the estoppel certificate. If the resolution does not pass at the special election, the Board would have to start over and submit another resolution.

Councilperson Hern stated he is not comfortable asking tax payers to borrow \$1.1 million since he feels, the way the facility is currently planned, there is some waste and extravagance in it. He understands we need a new facility and is not opposed to borrowing some money, but feels \$1.1 million is too much. He feels the amount needed to be budgeted to make the payments will be more than what is now budgeted for savings towards the highway facility and that we could borrow half as much money, not put up the salt structure or the wash bay and do some more tweaking to cut costs.

Councilperson Gaynor asked how the highway department would be affected if there is no wash bay in the building. Councilperson Hern replied there is no wash bay now – the trucks could be sprayed with a hose.

Councilperson Hern is concerned that if the money is available it might be spent, instead of planning now where to make cuts.

Attorney Guy Krogh reiterated that by approving the resolution the town does not have to spend the entire \$1.1 million if it is not needed. This would authorize the board to spend up to \$1.1 million, but it does not commit the board to spend that much.

Bob Grainger stated that currently there are a lot of good contractors looking for work, so the bids may come in lower than expected.

Councilperson Teeter mentioned that since rates are so low, the town might also consider a new town hall. If others are like-minded, the board should at least begin talking about this.

At this time the vote was taken with results as follows:

Councilperson Gaynor aye, Councilperson Hern no, Councilperson Owens aye, Councilperson Teeter aye, Supervisor Barriere, aye. Carried.

Bob Ranger left the meeting at this time.

Councilperson Hern asked if it would be better for the town to consider a mandatory referendum in the interest of saving time. Supervisor Barriere responded that if the board chooses the mandatory referendum they are basically deciding to spend the taxpayer's money, whereas a permissive referendum allows the public to tell the board to spend the money.

Guy Krogh noted that if the town has questions on changing the project, on what happens if the town runs under the amount or goes over the amount, or how it can affect what the town spends and what the interest rates are, he can be called or Municipal Solutions can be consulted.

Councilperson Owens shared her feeling that it is time to move on with this project. She would like the highway superintendent to be consulted with what changes he would like to see made and how costs can be reduced. She would also like to see a new town hall built without encumbering residents with higher tax rates.

Councilperson Teeter added that she hopes the next step will be to meet with the architect and the facility committee again to talk about what changes should be made. It seemed like the footprint would stay the same.

Guy Korgh left the meeting at this time.
