

We, the undersigned, strongly support the Black Oak Wind Farm and call on the Enfield Town Board to allow this project to move forward in a timely manner. Black Oak has undergone thorough study and design over the past eight years, has met all the requirements of the Town law and was approved in January 2015. Now, in response to residents' requests to re-site some of the turbines and the substation, Black Oak has submitted a supplemental proposal. We believe Black Oak Wind Farm makes a positive contribution to the community, to the environment and to future generations. We urge the Town Board to swiftly review and approve the changes set out in the Draft Supplemental Environmental Impact Statement.

We, the undersigned, strongly support the Black Oak Wind Farm and call on the Enfield Town Board to allow this project to move forward in a timely manner. Black Oak has undergone thorough study and design over the past eight years, has met all the requirements of the Town law and was approved in January 2015. Now, in response to residents' requests to re-site some of the turbines and the substation, Black Oak has submitted a supplemental proposal. We believe Black Oak Wind Farm makes a positive contribution to the community, to the environment and to future generations. We urge the Town Board to swiftly review and approve the changes set out in the Draft Supplemental Environmental Impact Statement.
