

Hello Board,

My name is James Ricks. I've lived in Endfield since the spring of 2004. I,m 71 years old, and I'm black. There are a couple of reasons that I've decided to give this a shot. First and foremost, my grandchildren. They've made me feel (as I did at the anti fracking meeting a few years ago at the school)that I have every right and qualification I need to have a voice in the condition of their community and environment. Also, the board meeting I watched on zoom.
