Enfield Town Board
160 Enfield Main Road
Enfield, NY 14850

Dear Town Board:

I would like to be considered for the open Town Board seat. I have been a resident of Enfield for 5 ½ years and during that time I have been actively involved in Enfield's town affairs, including serving on its Renewable Energy Advisory Committee (REAC) and working on the Town's Comprehensive Plan. As part of my work on the REAC, I and the other members met almost weekly for over a year to put in place comprehensive laws to deal with renewable energy systems that protect the town and its residents. Over the past 5 ½ years, I have also been actively involved in attending town board meetings and keeping up with town issues.

For the past 43 years, I have been an attorney, licensed to practice in NY, and I believe my legal skills will be invaluable to the Town Board as it works to address the issues confronting our town. For most of those years, I was also an actively licensed CPA (although I have more recently let my CPA license go inactive). Most recently, I have worked for Corning Incorporated as its Vice President of Tax. However, I will be retiring this coming May 1st giving me that much more time to devote to town affairs. There are many important issues that the town needs to address in the future and I believe my skill sets and my proven commitment to the town make me a strong candidate for this position. Thank you.

Sincerely,

Jude Lemke
